# Create a query that shows the top 5 rented movies, title and category from each Family Category: Animation, Children, Classics, Comedy, Family, Music

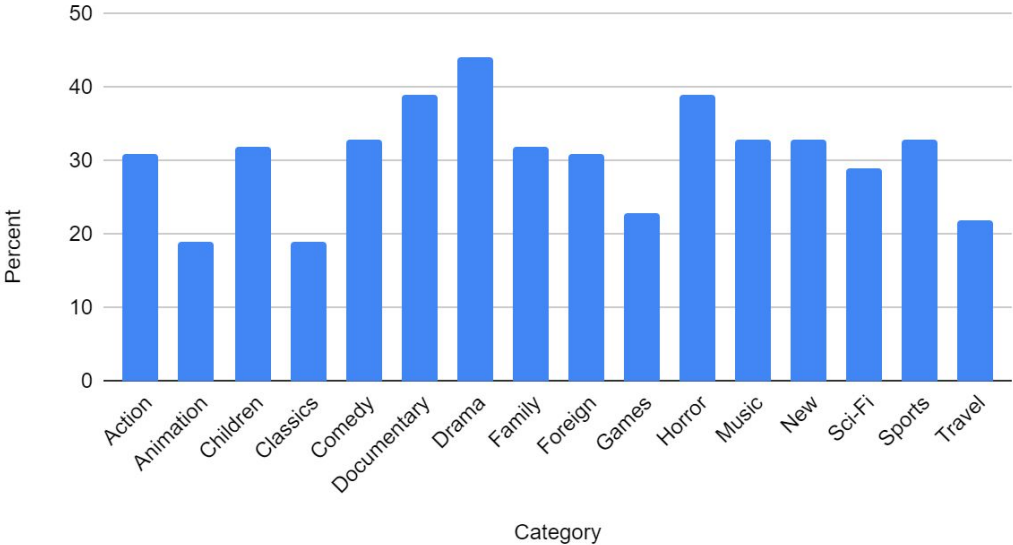

Top 5 Rented Movies in Each Family Category

From the chart on the left we can easily see the top 5 rented movies from each Family Oriented movie category.

Create a query that lists the categories and what percent of their possible duration they were out (rounded).

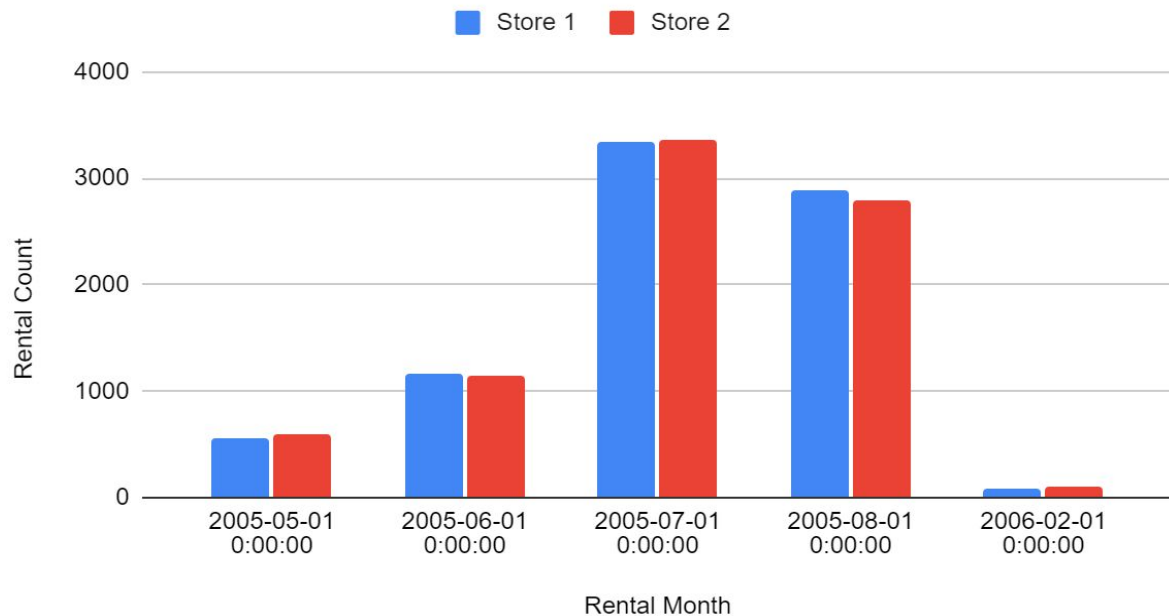

Average Percentage Out

From the chart on the left the Drama is kept out the longest followed by Documentary and Horror but none are kept beyond 50% of the average possible Rental Duration provided in the film table.

Write a query that returns the store ID for the store, the year and month and the number of rental orders each store has fulfilled for that month.

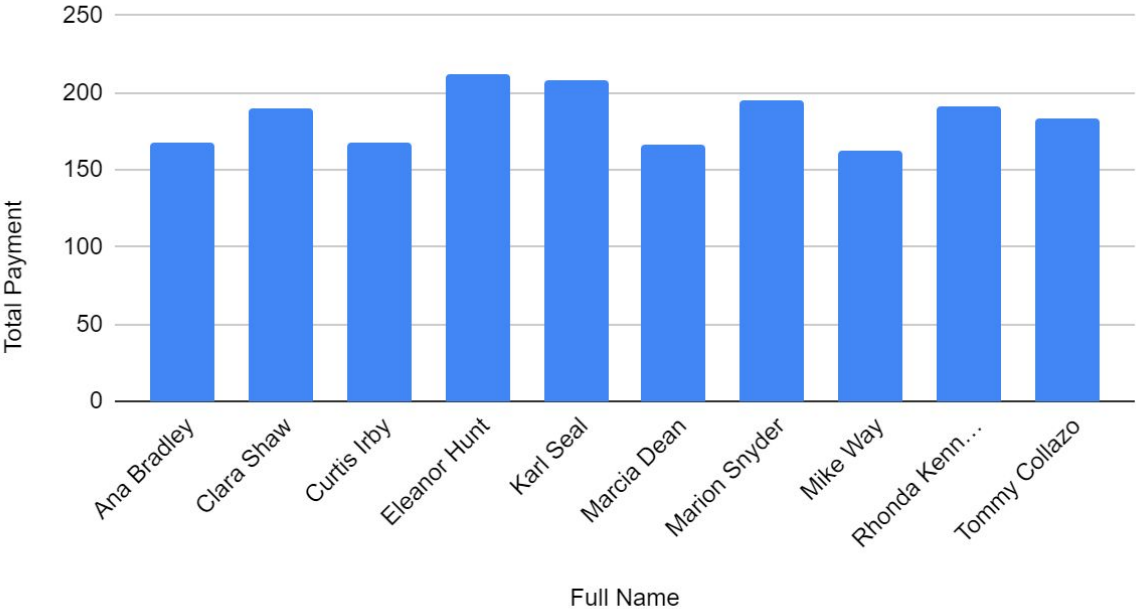

Rental Count by StoreID/Month

As we can from the chart on the left is that July 2005 is the Month where most sales occurred followed by August of the same year.

We would like to know who were our top 10 paying customers, and what was the total amount of the monthly payments in 2007.

Top Paying Overall Customers - Total 2007 Payments

The left chart shows the top 10 paying customers overall and the total amount they paid in 2007.
